Independent Auditors' Report

To the Board of Directors United Way of Westchester and Putnam, Inc.

We have audited the accompanying statements of financial position of United Way of Westchester and Putnam, Inc. ("United Way") as of June 30, 2007 and 2006, and the related statements of activities, functional expenses and cash flows for the years then ended. These financial statements are the responsibility of United Way's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of United Way's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of United Way of Westchester and Putnam, Inc. as of June 30, 2007 and 2006, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our 2007 audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary schedules on pages 19 through 31 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in Note 2 to the financial statements, United Way changed its method of accounting for pensions in the year ended June 30, 2007.

Notes to Financial Statements

1. The Organization

United Way of Westchester and Putnam, Inc. ("United Way") is a not-for-profit health and human services agency exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code. United Way conducts fund-raising, fund distribution and community impact activities in collaboration with fifteen local affiliated United Ways in Westchester and Putnam Counties. Supporting these activities are management, communication, research, information systems, and volunteer and staff development efforts. Some local affiliated United Ways maintain separate legal status and retain non-campaign receipts and title to reserve funds which are not included in these statements.

The United Way has responsibility for soliciting, billing, and collecting all local donors' accounts. Amounts collected on behalf of other agencies are distributed as prescribed by the donor. In addition, the United Way is a participant in the Tri-State Regional Campaign which was created to coordinate fund raising for companies with employees in multiple locations, on behalf of autonomous local United Ways in New York, New Jersey and Connecticut. The Tri-State Regional office of United Way of America has assumed coordination and collection responsibilities for these companies within the Tri-State area. Each United Way participating in the Regional Campaign takes an active role in working with those companies in their area and shares in the unrestricted funds raised in accordance with a formula established more than ten years ago.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates and assumptions relate to the determination of the allowance for uncollectible pledges, accrued expenses, accrued pension cost, and the useful lives of assets. Actual results could differ from those estimates.

Financial Statement Presentation

Net assets and revenues and expenses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein, are classified and reported as unrestricted net assets, temporarily-restricted net assets and permanently-restricted net assets, as applicable.

Cash and Cash Equivalents

Cash includes currency on hand, demand deposits with financial institutions, and other amounts that have the general characteristics of demand deposits. Cash equivalents include short-term investments with maturities of three months or less at the time of purchase.

United Way of Westchester and Putnam, Inc.

Notes to Financial Statements

2. Significant Accounting Policies *(continued)*

Investments

Investments consisting of debt and equity securities are reported at fair value and unrealized gains and losses are included in the statement of activities. Fair value was determined principally by quoted market prices.

Land, Building and Equipment

Land, building and equipment is stated at cost at the date of acquisition or at estimated fair market value at the date of donation, less accumulated depreciation. Expenditures for land, buildings and equipment in excess of \$500 are capitalized. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows: buildings (25 years); capital improvements (5 to 10 years); and furniture, fixtures and equipment (3 to 10 years).

Campaign Results

Funds raised by United Way are categorized as follows:

- Unrestricted local campaign pledges.
- Local campaign pledges restricted by donors (donor choice).
- Share of Tri-State Regional Campaign as determined by agreed upon formula.
- Proportionate share of Tri-State Regional Campaign's pledges restricted by donors to agencies and United Ways not participating in Regional Campaign (donor choice).

Amounts raised on behalf of others includes United Way's share of the Tri-State Regional Campaign restricted pledges and local campaign restricted pledges (donor choice).

Contributions

Contributions are recognized when the donor makes a promise to give that is, in substance, unconditional. Contributions received are recorded as unrestricted and temporarily-restricted support depending on the existence and/or nature of any donor restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets. The Regional Campaign promises receivable are recorded when the United Way is notified by the regional office of the annual regional campaign results. The United Way uses the allowance method to determine uncollectible unconditional promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made.

Contributed Materials and Services

Contributed materials are reported at fair value on the date of donation. For the years ended June 30, 2007 and 2006, a substantial number of volunteers have donated considerable amounts of their time to the United Way's program and supporting services; however, no contributed services met the requirements for recognition in the financial statements.

2. Significant Accounting Policies *(continued)*

Allocations and Designations to Agencies

In June 2007, the Board of Directors of United Way approved an initial budgeted amount of \$948,024 in undesignated and targeted funds for allocations and grants in fiscal 2007. No liability has been recorded in the accompanying financial statements because the distributions will be funded from the proceeds of the 2007-2008 fundraising campaign conducted in fiscal 2008.

Amounts which have been allocated to specific agencies in the current fiscal year but have not been disbursed as of June 30 are accrued and reflected in the accompanying statements of financial position as "Due to Agencies". Amounts committed for periods after year end are subject to further review and approval by the United Way Board and the availability of funding. Accordingly, such amounts are not reflected as a liability as of year end. Donor choice funds are paid separately, generally on a quarterly basis, and have also been reflected in "Due to Agencies".

Implementation of SFAS No. 158

In September 2006, the Financial Accounting Standards Board ("FASB") issued FASB Statement No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 13 (R)*. Information regarding this change is contained in Note 10.

Reclassifications

Certain reclassifications have been made to June 30, 2006 information to conform to the June 30, 2007 presentation.

3. Concentrations of Credit Risk

Financial instruments which potentially subject United Way to concentrations of credit risk include bank deposits in excess of the Federal Deposit Insurance Corporation ("FDIC") limits. United Way management believes it mitigates its risk by investing with reputable commercial institutions with satisfactory credit ratings. United Way has not experienced any losses on these financial instruments.

Campaign results include funds raised by the Tri-State Regional Campaign which represents approximately 43% and 40% of the total for fiscal 2007 and 2006. A significant change in the relationship with the Regional Campaign could have a material impact on United Way's operation.

The fund was established by Nelson Rockefeller in 1951 and contained restrictions on the use of the income. In 2007, the New York State Attorney General's Office notified the United Way that it was the legal successor of the fund. Generally accepted accounting principles require the recognition of the fair value of the future income stream. The fair value of the underlying assets of the fund was used to determine the future income stream. The assets of the trust are classified as temporarily and permanently restricted.

United Way is also the beneficiary of two charitable gift annuities. Upon death of the owners, United Way will receive the gifts from the annuities. The administrator of the annuities is United Way of America.

8. Loan Payable to Bank

The United Way has borrowed \$1,700,000 from a financial institution under a collateralized open ended line of credit. Outstanding borrowings bear interest at either the institution's rate (the higher of prime or the federal funds rate plus 1/2%), or the London Interbank Offer Rate (LIBOR plus 1.75%). The agreement requires the line be repaid to a minimum of \$500,000 for a period of 30 days annually. The line of credit is collateralized by United Way's present and future undesignated receivables as well as a \$1,000,000 mortgage on the building. Interest expense incurred was \$85,785 and \$50,914 in fiscal 2007 and 2006.

9. Due to United Way of Tri-State

United Way owed Tri-State \$50,982 (net of unamortized discount of \$1,590) at June 30, 2006. This loan was paid in off in January 2007. The terms of the repayment arrangement do not contain a provision for the payment of interest. Accordingly, interest was imputed at management's estimate of fair market value, 9.75%, which resulted in a reduction in Due to Tri-State of \$628,820 as of May 1994. Interest expense incurred was \$1,615 and \$8,686 in fiscal 2007 and 2006.

10. Pension Plan

United Way maintains a noncontributory defined benefit pension plan covering substantially all of its employees. Effective July 1, 2007, United Way adopted the recognition and disclosure provisions of Statement No. 158. Statement No. 158 required the United Way to recognize the funded status of its pension plan in the June 30, 2007 statement of financial position, with a corresponding adjustment to other changes in net assets. The adjustment to other changes in net assets at adoption represents the balance of unrecognized obligation that will be recognized within net periodic pension costs in the future. The incremental effects of adopting the provisions of Statement No. 158 resulted in a charge to net assets and an increase in accrued pension cost totaling \$223,808.

Pension plan information for fiscal 2007 and 2006 are as follows:

	<u>2007</u>	<u>2006</u>

 Assumptions

Expected long-term return on plan assets	8.00%	8.00%
Rate of compensation increase	5.50%	5.50%

The Expected Long-Term Rate of Return on Plan Assets assumption of 8.0% was selected using the "building block" approach described by the Actuarial Standards Board in Actuarial Standards of Practice No. 27 - Selection Economic Assumptions for Measuring Pension Obligations. Based on United Way's investment policy for the pension plan in effect as of the beginning of fiscal year, a best estimate range was determined for both the real rate of return (net of inflation) and for inflation based on historical 30-year period rolling averages. An average inflation rate within the range equal to 3.75% was selected and added to the real rate of return range to arrive at a best estimate range of 7.37%-8.98%. A rate close to the midpoint of the best estimate range of 8.0% was selected.

Plan Assets

The plan assets as of June 30 by category consist of:

	<u>2007</u>	<u>2006</u>
Equity securities	\$ 1,135,359	\$ 1,655,986
Fixed income securities	2,156,518	-
General account	<u>2,650</u>	<u>1,249,816</u>
	<u>\$ 3,294,527</u>	<u>\$ 2,905,802</u>

In fiscal 2007, the investment policy of the plan requires an investment of \$1 million in money market funds and the balance split between equities and short-term fixed income securities. The asset mix will be rebalanced quarterly if the ratio varies by more than 5%.

United Way is the fiscal and operating agent for 2-1-1 Hudson Valley Region which is being underwritten by local United Ways, governments and foundations. Net assets of the 2-1-1 Hudson Valley Region at June 30, 2007 and 2006 amounted to \$105,539 and \$365,355 respectively.

17. Emergency Food and Shelter Program

Each year, the United States Congress appropriates funds for an emergency food and shelter program which is administered by a national board involving nine major not-for-profit organizations, including the United Way of America. In turn, local emergency food and shelter boards, involving local representatives of the nine organizations, including local United Ways and other local public and community leaders, recommend how local shares of the total appropriation, based on several needs-oriented factors, should be distributed among those local 501(c)(3) agencies requesting funds to expand their capacity to serve the hungry and homeless. United Way administers the program in Westchester and Putnam, supports the local Board's decision-making process, and monitors the use of all funds allocated. In fiscal year 2007 and 2006, a total (unaudited) of \$421,997 and \$396,929, was granted and these amounts are not included in the statement of activities of the United Way.
